October 30, 2024

Dear Hiring Manager,

My name is Vivian Bui and I am applying for the Design Intern position at Nakisa. I recently obtained my degree in Computation Arts at Concordia and have previously graduated from the Graphic Design program at Dawson College.

I am proficient in various Adobe software such as InDesign, Photoshop, Illustrator, After Effects and XD. I also have experience in other creative tools such as Blender and Figma and draw digitally on my tablet. I enjoy using Google Sheets/Excel to present information neatly. My current obsession is building automated designs by combining the data from spreadsheets with Figma, using components to make informative design.

I always make it my mission to create aesthetically pleasing and easily digestible content. I enjoy applying a design to different mediums, especially when it comes to animating visuals or placing a design into a 3D space. My work process continues to receive praise for being thoroughly documented and well presented.

I believe this job is the best occasion for me to show my artistic and design skills. I thank you for your time and consideration; I look forward to hearing back from you.

I invite you to check out my [video reel](#) (45s) and portfolio website [vivianbui.ca](http://vivianbui.ca).

Sincerely,  
Vivian Bui
